REMARKS

In response to the attached Notice to Comply, this Amendment
corrects the errors related to nucleic acid sequences noted in the
Raw Sequence Listing Error Report. Specifically, the attached
substitute Sequence Listing: (a) replaces the term "Synthetic" with
the approved term "Artificial" in each occurrence of item <213>;
(b) adds the comment "derived from exon 10 of the human cystic
fibrosis gene" as <223> to the first two sequence descriptions
describing the sequence as "Artificial"; (c) adds the comment

"derived from the Drosophila erg gene" as <223> to the third and final sequence description describing the sequence as "Artificial"; and (d) adds application data (serial number, etc.). Pursuant to 37 CFR 1.821 and/or 1.825, the undersigned hereby states that no new matter is introduced by this Amendment.

A computer readable copy of the substitute Sequence Listing is also attached hereto. Pursuant to 37 CFR 1.821 and/or 1.825, the undersigned hereby states that the content of the paper and computer readable versions of the substitute Sequence Listing are the same.

Accordingly, it is respectfully submitted that Applicants have now complied with all relevant Sequence Listing requirements.

Should the Examiner believe that anything further is desirable in order to place the application in even better condition for initial examination and allowance, the Examiner is invited to contact Applicant's undersigned attorney at the telephone number listed below.

Respectfully submitted,

CAESAR, RIVISE, BERNSTEIN,
